TRANSPOSING METALLIC HARMONICONS.

THE TERM "TRANSPOSING" SIGNIFIES THE NOTES ARE MOVABLE, SO THAT THE FRONT ROW CAN BE PUT INTO ANY KEY. SEE SCALES, PAGES 5, 6, & 7, IN INSTRUCTOR, which may be had post free for 1s., or is given gratis with each instrument

15 semitones, or back-row notes, is all that is required for ordinary purposes, but the transposition, which is of great importance, cannot be carried out unless the extra notes are inserted, as on the instruments below. See also the Instructions and Scales.

These Instruments are exceedingly useful in all Institutions or Private Families where the Rudiments of Music are being studied, and particularly so where Singing is being taught, as in Classes at Schools, &c.

The 3 octaves Harmonicons commence on G, under the second ledger below the treble stave; all other sizes commence on C, the first ledger line below the treble stave. They are all tuned to concert pitch.

The front row of notes (on any of the Harmonicons with a double row) produce the same notes or sounds as the white keys of the Pianoforte, Organ, or Harmonium, and the back row the same as the black keys. Those with a single row of notes are the same as the front row of the double ones.

Any Gentleman who can make a case, may be supplied with the notes by themselves, at 6d. each, all marked and tuned ready for use. A set of notes (namely, 43) for a 3 octave, double row, will make a parcel 6 inches long, by 1½ inches square, weighing 8½ pounds, so that the bulk and weight of any number can easily be calculated, and the expense of carriage to any part of the world ascertained. This is well worthy the attention of persons going abroad, or sending goods to various parts. An immense number of T. C.'s patent notes have been manufactured for this purpose, and a ready sale is found for them, because illustrations are given with each set, showing entirely how to make the instruments, which any person can accomplish.

THE ORIGINAL METALLIC HARMONICONS,
Suitable for Schools or ordinary purposes.

2½ " " C to G	1	5	0
2 " " C to C	1	0	0

N.B.—Merchants, Shippers, Captains, and Emigrants will find these Instruments very excellent for a Sea Voyage or for Exportation, because the notes are not at all affected by the variation of climate, they always remain perfectly in tune, and cannot be broken or destroyed.

Hundreds of testimonials may be seen, if required, but the space here would not admit of their insertion.

There is not the least difference in the quality of the notes on any of T. C.'s Metallic Harmonicons; it is the workmanship, and materials in the cases, which make the variation in the price.

Illustrations of other kinds are given on the last page of T. C.'s Instructions and Scales, showing the advantages and utility of the above instruments; free by post for 12 stamps, or given gratis with each Transposing Instrument.

Post-Office Orders to be made payable to THOMAS CROGER, at High Holborn. (W.C.)
